Project goal

LLC «Blockchain Technology» is developing the cryptocurrency RACY (RTF). Basic goals we want to achieve:

1. Scaling (usage anywhere with Internet access);
2. instant transactions (processing more than 30 000 transactions per second);
3. simple integration of RTF usage with an API (using RTF wherever it is needed: business, WEB, mobile apps);
4. easily customizable SMART-contacts;
5. interesting and useful functional features of RTF wallet.

About the RTF (RACY) coin

There will be 100 000 000 RTF emitted (RTF (RACY) - Racy Transaction Fast):

10% RTF will be owned by the team;

from 20% RTF will be reserved (miners' rewards);

up to 70% RTF will be distributed among the donation patrons.

RTF price:

Stage 1 (from 15.05.2018 to 15.06.2018): 1RTF = 0.25 USD;

Planned funds to collect: 2 500 000 USD

Stage 2 (from 16.06.2018 to 16.07.2018): 1RTF = 0.30 USD;

Planned funds to collect: 6 000 000 USD

Stage 3 (from 17.07.2018 to 17.09.2018): 1RTF = 0.40 USD;

Planned funds to collect: 8 000 000 USD

Stage 1 (from 18.09.2018 to 30.09.2018): 1RTF = 0.75 USD;

Planned funds to collect: 15 000 000 USD

If the current funds collecting goal is met before its stage end date, the next stage will be started ahead of schedule.

Additional emission of RTF will not be conducted. We prefer the alternative to conducting ICO by issuing a digital certificate.

RTF has 8 decimal digits (0.12345678)

A digital certificate is issued for a donation equivalent to the amount no less than 50 USD.

The digital certificate will allow you to add to the balance of your future RTF wallet for an amount equivalent to the donation made. The digital certificate is not an issued share, a security, a token or a legal tender, and carries only the data necessary for adding to the balance of your wallet.
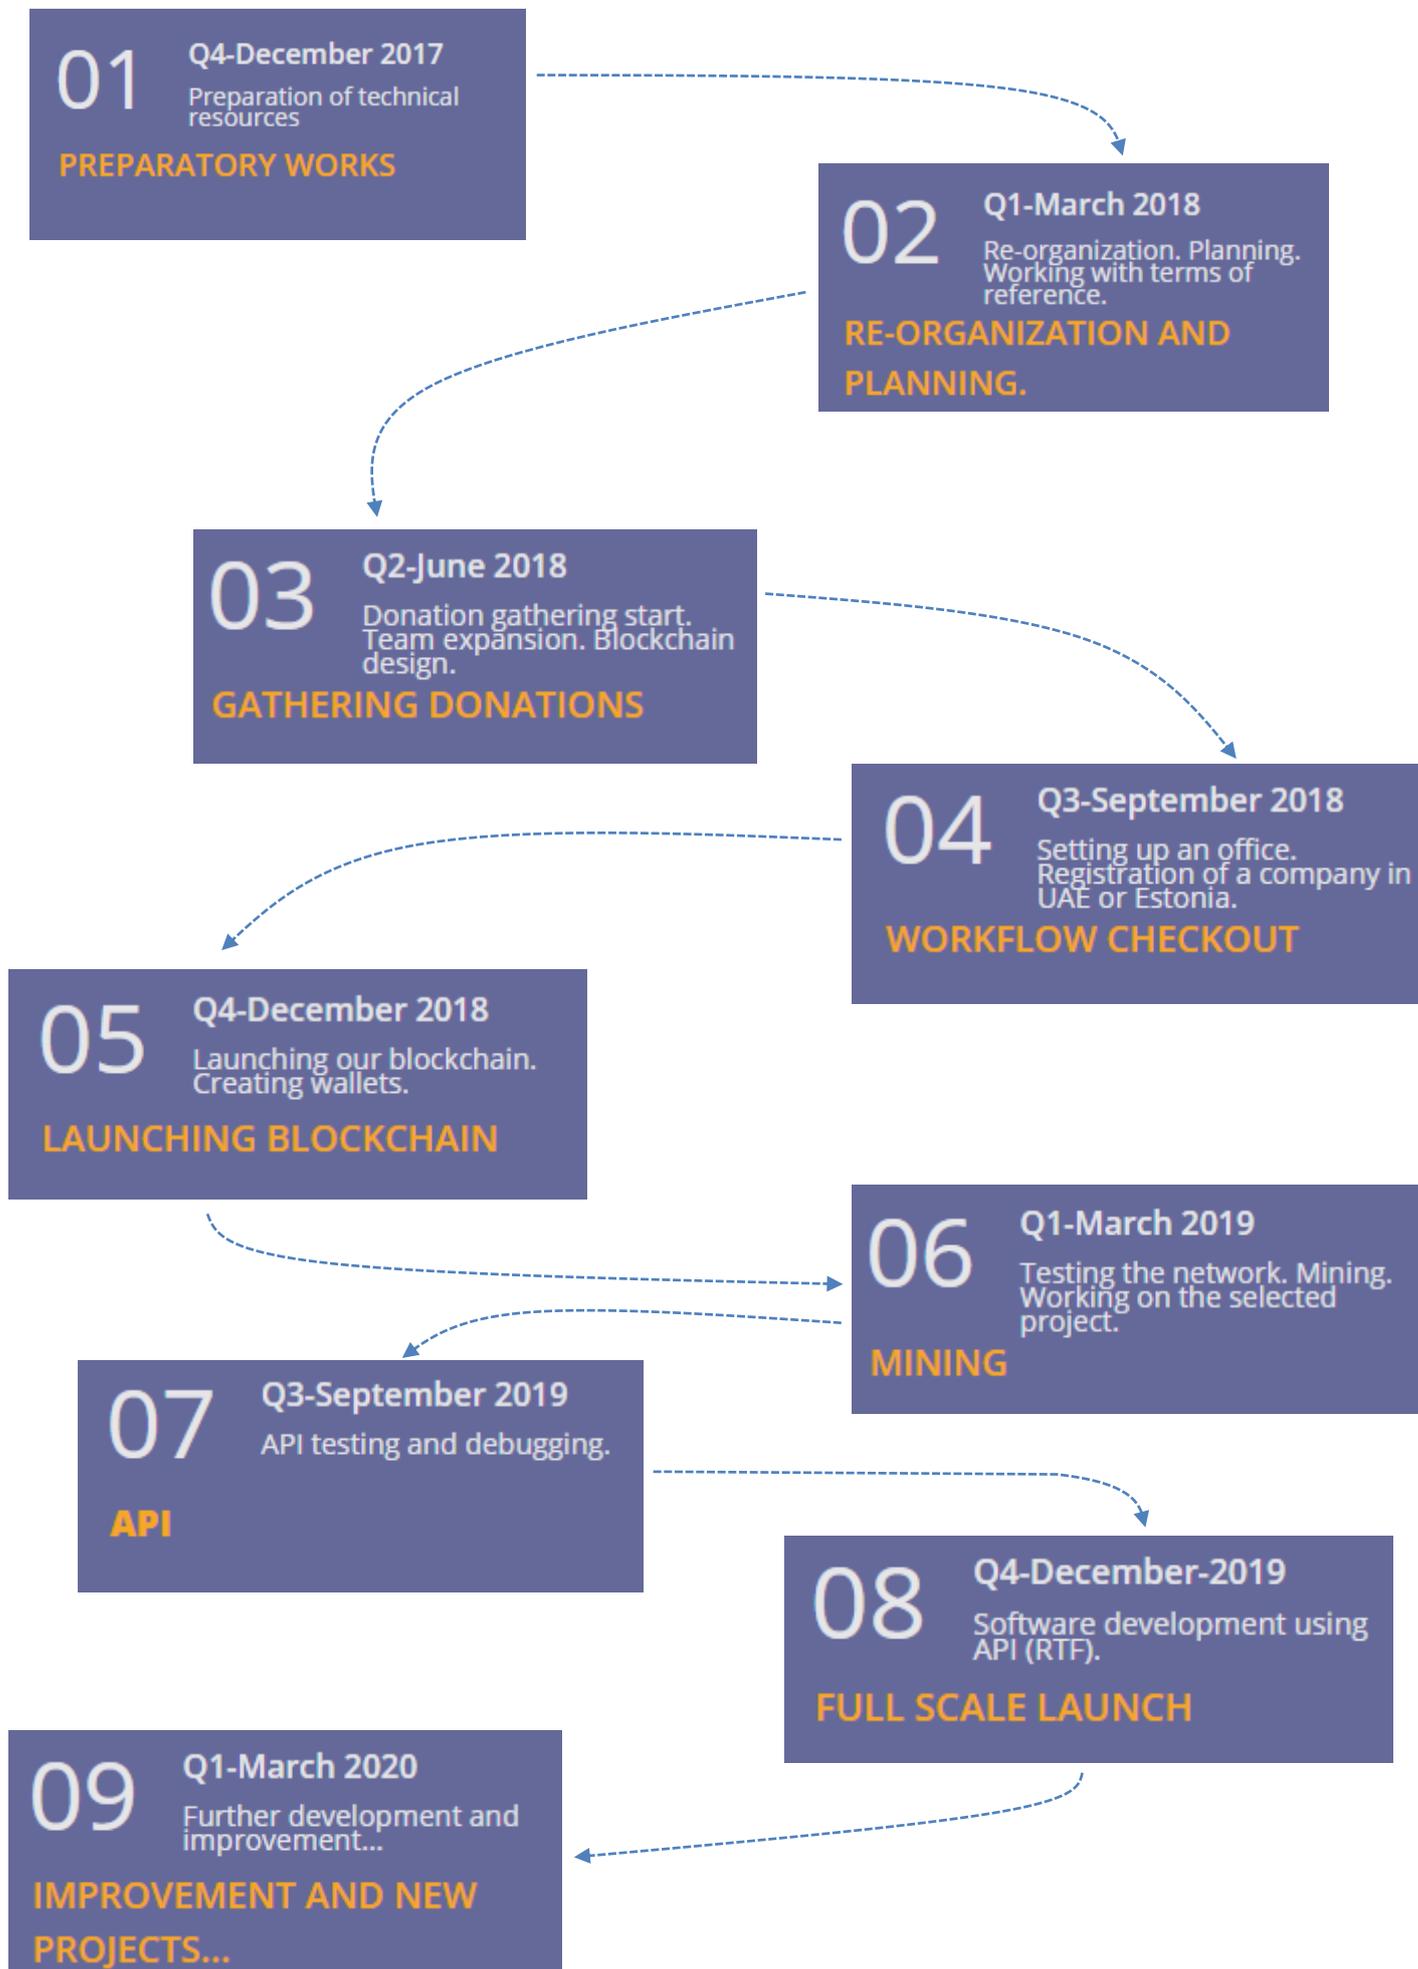

The digital certificate will be sent to the E-mail entered in the form (step 2) on the site http://topay.io. The certificate will be issued within 12 to 120 hours. All certificates are generated by our software complex after the verification of the donation by our specialists.

The digital certificate is fully anonymous, you can do whatever you want with it. Any decisions of its further usage are yours to make.

An example of the digital certificate:

Road Map

01 Q4-December 2017
Preparation of technical resources
PREPARATORY WORKS

02 Q1-March 2018
Re-organization. Planning. Working with terms of reference.
RE-ORGANIZATION AND PLANNING.

03 Q2-June 2018
Donation gathering start. Team expansion. Blockchain design.
GATHERING DONATIONS

04 Q3-September 2018
Setting up an office. Registration of a company in UAE or Estonia.
WORKFLOW CHECKOUT

05 Q4-December 2018
Launching our blockchain. Creating wallets.
LAUNCHING BLOCKCHAIN

06 Q1-March 2019
Testing the network. Mining. Working on the selected project.
MINING

07 Q3-September 2019
API testing and debugging.
API

08 Q4-December-2019
Software development using API (RTF).
FULL SCALE LAUNCH

09 Q1-March 2020
Further development and improvement...
IMPROVEMENT AND NEW PROJECTS...

5

Making a donation

We accept donations in cryptocurrency and transfers in USD, EUR, RUB. We will accept any amounts of cryptocurrency you would like to donate. When making a donation with our organization's banking details, we bill you for the amount of the donation up from 1000 USD. You can donate without compensation, or receive a certificate which will allow you to add to the balance of your future wallet in cryptocurrency, equivalent to the donation amount.

You can choose the most suitable donation method on the site http://topay.io.

RTF mining

Mining is planned to be available only to RTF supernode holders. Rewards will be formed in proportion to the pledge provided. The minimal amount of the pledge and penalty sanctions will be announced after the testing of the network.

Conclusion

We will not disclose the technical details, as we think that such information will complicate the perception of our project.

If you have questions, you can fill out the feedback form on the site http://topay.io, we will always strive to give a simple answer.

With our respect, the LLC «Blockchain Technology» team

RTF (RACY)
